

ISSISS GALILEI BOCCHIALINI
PIANO DI MIGLIORAMENTO

DOSSIER AZIONI
ITIS G. Galilei

A.S. 2021-2022

I dati inseriti nel presente dossier sono stati raccolti alla fine dell'anno scolastico 2021-22 e rielaborati all'inizio dell'anno successivo dal Nucleo Interno di Valutazione (NIV) formato da docenti del Galilei e del Bocchialini.

Alcune indicazioni, necessarie per una lettura anche superficiale dei dati inseriti:

- l'attività di dossieraggio è stata ripresa dopo una sospensione di due anni dovuta alle complicazioni collegate alla pandemia
- gli strumenti di rilevazione utilizzati sono stati elaborati in autonomia dal Niv e integrano quelli contenuti nel Rav. Il Niv sta però procedendo all'integrazione di questi strumenti per rendere più puntuale la verifica del conseguimento dei traguardi di miglioramento
- gli elementi informativi contenuti nel documento sono destinati all'approfondimento da parte dei docenti, singolarmente e/o riuniti in gruppi di lavoro (dipartimenti, materia, indirizzo, articolazione, ...) nel quadro del piano di miglioramento deciso dalla scuola.

Contenuto del dossier:

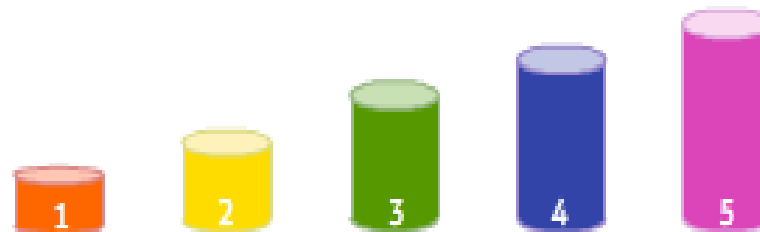

1. esiti delle prove Invalsi
2. recupero 1° quadrimestre
 - 2a. percentuali studenti inviati a recupero, recuperati / non recuperati
 - 2b. modalità di recupero e successo dell'intervento di recupero
3. esiti prove comuni

Al contrario di quanto avvenuto nell'ultimo dossier (2018-19), il Niv non ritiene utile formulare particolari riflessioni sui dati raccolti data l'eccezionalità degli ultimi tre anni di lavoro, condizionati dalle difficili condizioni che la scuola ha vissuto in epoca covid-19.

1. ESITI

PROVE INVALSI 2021-22

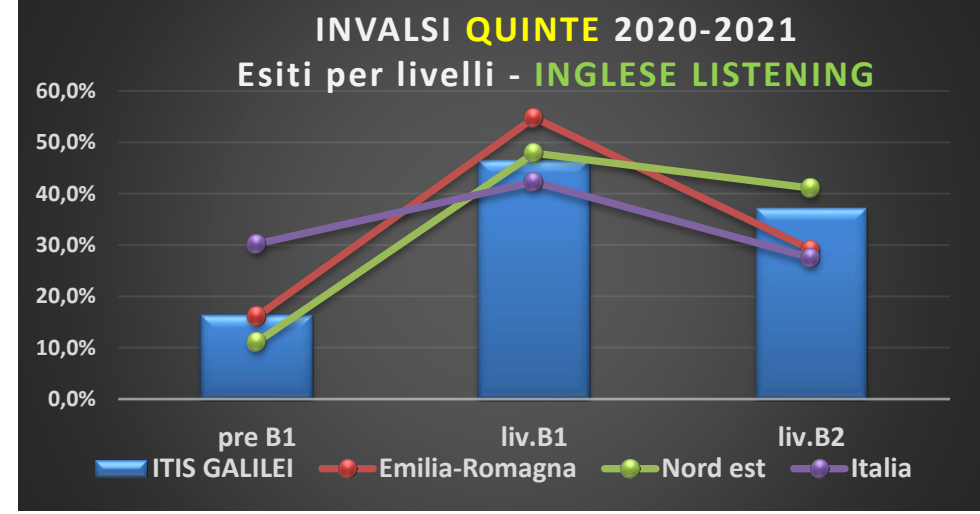

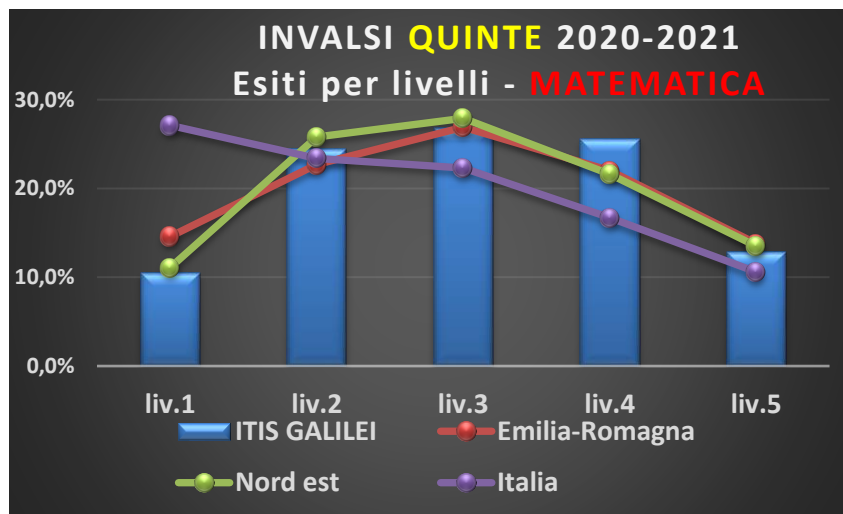

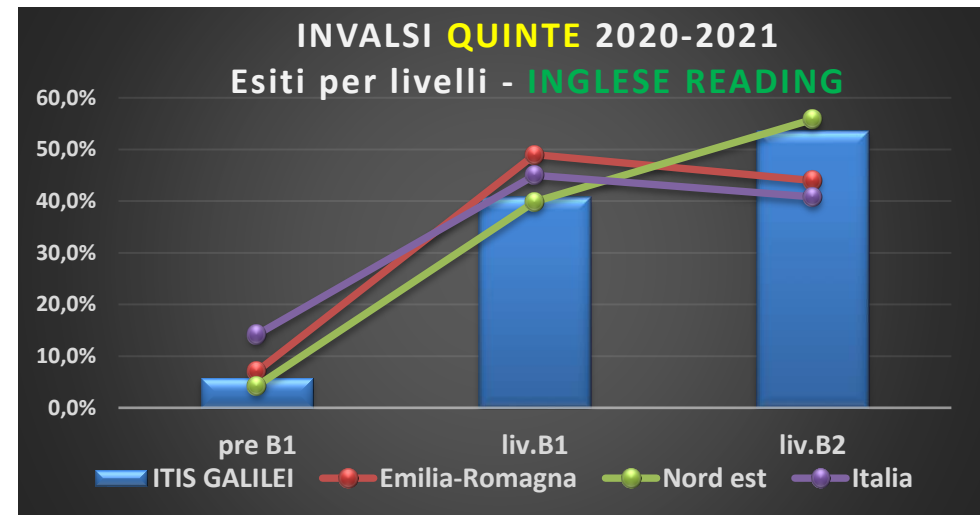

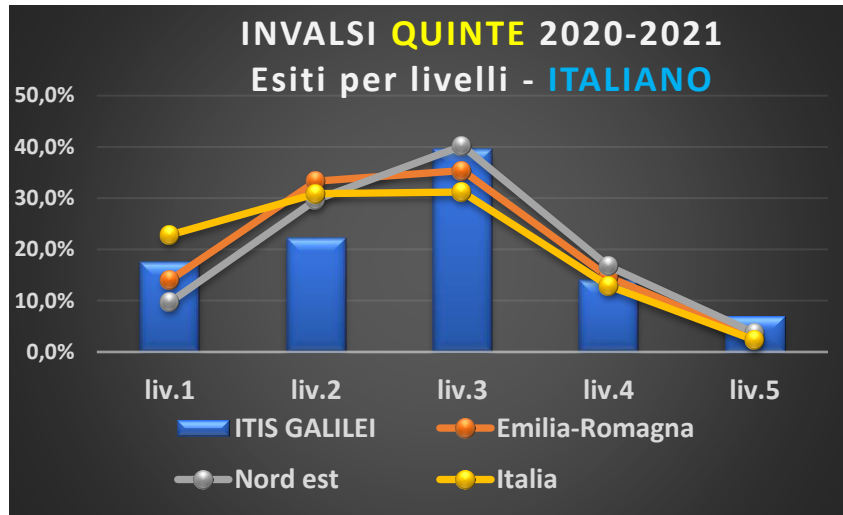

Sulla base della media dei risultati nazionali, l'INVALSI ha definito cinque livelli di apprendimento: il livello 1 rappresenta il livello più basso, mentre il livello 5 il più alto
